**“THE WOODWARD TEAM...
HELPED US TO PRIORITIZE THE FEATURES WE
WANTED WHILE KEEPING BUDGETS IN MIND.”**

FROM SITE SELECTION TO INITIAL PLANNING OF OUR 70,000-SQUARE-FOOT PLANT, there was a comfort level and a service level with Woodward that made PGP International, Inc.’s leadership feel that Evansville and Woodward were the right choices for the plant. With Woodward’s build-to-suit approach they were able to facilitate into the design important features for our food ingredient business. Woodward helped us to prioritize the features we wanted while keeping budgets in mind. Beyond managing our building and construction needs, Woodward was instrumental in connecting our team with key business contacts in Evansville for legal matters, business licenses, and insurance. Woodward made the introduction with Ivy Tech, who set up an assessment center to aid us in the recruiting and hiring process. Woodward was our single source for putting us in touch with the right folks to partner with in this community. Having not had any presence in the Evansville market prior, we simply found the best partner in Woodward.

— Brad Jenkins, *Site Manager*
